AWARENESS DAY

As seen on

NBC UNIVERSAL

Laymon
A. HICKS

Meet Laymon Hicks...

All teens are troubled. It goes with the territory. A part of the "passage." There is the typical "torment" of wanting to belong, to be the same, to be liked and accepted. Is my nose too big? My height too short? My hair too long?

But not everyone belonged to the Brady Brunch. Drugs. Alcohol. Violence. Stress. Depression. Add the words bullying, peer pressure and self-doubt and you've entered the real world drama of too many of our young people today.

The passage for Youth Speaker Laymon Hicks was not typical. He was not a part of "all things Brady." Sharing his troubled teen years, surrounded by drama, battled with feelings of abandonment, lured by peer pressure into becoming a bully to his ultimate expulsion from the National Honor Society and descent into depression, Laymon puts it all on the table.

What he calls his "frustrations, flops and faults" are hungrily devoured by his audience. And then digested. For whatever the details, from one degree to another, the pain is universal. They all know it. Now they are hungry for the outcome. The resolution. The road to redemption. And Laymon delivers.

He tells them that the real motivation comes from within. From wanting more. From needing to do better. From believing you deserve better. From "Get up! Get out! Go get it!" From knowing "You Can!" From knowing "You're the BOMB!"

His own path, from troubled youth to graduating high school with a 4.0 grade point average, is the perfect ending his young audiences are waiting for. But, in fact, it's only the beginning.

Laymon attended Florida State University, attaining both bachelor's and master's degrees, was Student Body President, has authored four inspirational books for students, has appeared as an on-air motivational expert for the #1 Nationally Syndicated Talk Show, Maury, offered keynote addresses and workshops at more than 100 schools and student conferences for over 50,000 young people.

But he doesn't soft soap the struggle. It's hard, with lots of setbacks along the way. But his message remains clear. Compelling. "Failure is not fatal!" Laymon promises, his energy and passion pulsing through the room, "If you had the power to try - you have the power to try again! And again! You've got to be positive. Because..." But they already know it, "Because I am the BOMB!" His message has become their reality.

BREAKOUT SESSIONS

"9-1-1 What's Your Emergency?"

Alcohol and drug use-related visits are far too common for this Bay Area Medical Center's ER staff member who is here today to discuss what happens, or DOESN'T happen, once medical personnel is needed. You don't want to miss out on this session as they explore what is their reality once yours is shocked.

"PLEASE WAIT!"

There is a lot of information out in cyberspace, on TV and radio, and in music and movies about marijuana. What's true and what's not? This workshop will help sift through some of the popular claims made about pot. Using facts, this session will discuss whether cannabis is something worth trying and what risks need to be considered before a choice is made.

"Mistakes Leaves Clues"

There is a lesson in everything, even our mistakes. In this highly interactive talk show style seminar, Keynote Speaker Laymon Hicks shows students that it's all right to make mistakes. We all make them. But the best of us learn from their mistakes. Students discuss and learn the hidden lessons and principles found within common mistakes students make today!

"The Dangers of Drugs"

This presentation describes the dangerous drugs found in the Upper Peninsula and Northern Wisconsin and the effects they have on the users that fall victim to them. In this presentation a team member from UPSET will discuss the illegal drugs, such as, Heroin, Cocaine, Meth, Prescription Pill, and Marijuana. It's a Can't MISS presentation!

Room

"Mirror Mirror on the Wall, sometimes it's not what you see at All..."

This workshop will focus on understanding weight-related concerns, recognizing healthy body images, becoming aware of disordered eating, focusing on healthier environments, and honoring your body. The presentation will involve hands on learning and interactive activities!

Room

Room

"Healthy Teen Relationships"

Yelling, Pushing, Name Calling, Texting, Sexting, Snap Chat- Do any of these sound like something you have witnessed or been a part of? If yes, please plan to attend this informational session. Over half of teens know someone who has been physically, sexually, or verbally abusive in a dating relationship. Join us in this session as the Lead Outreach/Legal advocate from the Rainbow House is here to help teach the warning signs and where to go to for help.

Room

Room

"Cybersafe?"

Facebook, Twitter, Chat Rooms and many other social media networking sites make it easy for bullies and predators to seek out their victims. Are you being cyber safe? Check out this session with a representative from the Menominee County Sheriff's Department as they talk about the dangers of the internet.
